WATER SURROUNDS ALL OF RUSHVILLE

Cloudburst Monday Evening and Heavy Rains During Night Bring on Flood Conditions.

FLATROCK IS RUNNING WILD

Concrete Dam Northeast of City Swept Away by Rising Waters-Roof on Bridge Blown Off.

Rushville was almost completely surrounded with water Monday evening and today as the result of the excessive rainfall of the past few Rains continues. days, every small stream was on a rampage, making the local situation rivers at flood stages and still risthe worst since the 1913 flood.

The streams were rising today as the result of the heavy deluge which almost resembled a cloudburst late Monday, and the heavy rains during the night. Flatrock, which had been out of its bounds since the middle of last week, was going wild this morning, but it was not expected to reach the serious stage that it did in

Hodges branch, which runs diagonally through the northwest portion of the city, was causing high waters in that section of the city, but there was not as much water as usual during a heavy rain. The water was flooding the streets in North Sexton, North Arthur, Seventh, Eighth and Ninth, in this vicinity, and it was necessary early today and late Monday for the traction company to transfer passengers around the high water, as the cars could not operate through it.

This situation, however, was soon relieved as the rain ceased and the water was going down in this section Conspiracy Charges Do Not Offer

shortly before noon. Flatrock flooded all the territory north of here for several miles, and water was across the roads at various places between here and Gings. The dam, built of concrete, located on the Green and Green farm, just northeast of here, was reported to have been swept away by the rising water, and this caused the water to collect in large quantities over the lowlands south and to the east of Rushville.

The fields and pastures east and south of Rushville were under water several feet, and the water had backed into the streets bordering close to the race. South Perkins, Continued on Page Three

PRESENCE OF JAPAN AT GENOA PROTESTED

Question Raised at Economic Conference by Count Chitcherin Like a Bomb Shell

BIGGEST SURPRISE OF PARLEY

(By United Press)

Genoa, April 11.-Protest against the presence of Japan at Genoa was raised at the economic conference's first meeting this afternoon by George Chitcherin, head of the Russian delegation.

Count Ishii of the Japanese delegation retorted that Japan was here to stay whether Chitcherin liked it or not.

The Russian spokesman fulfilled the roll assigned him by observers as the "leader of the opposition" to Lloyd George at the conference. Today when the conference was divided into four committees, Chitcherin addressed the political branch of the parley, declaring Japan should not be represented at Genoa. He suggested the Eastern empire was not likely interested in strictly European

The demand for Japan's with drawal came as a bomb shell to the delegates. It was the biggest surprise of the conference so far.

Japan is a member of the allied supreme council and has been such since the war. Her statesmen has always taken part in general European deliberations.

Chitcherin also presented a program of the several governments for rehabilitation of Europe and reiterated his statement of yesterday that disarmament must be consider-

Flood at a Glance

(By United Press) Floods caused damage amounting to millions of dollars throughout western states today.

Rivers, swollen by days of rain overflowed their banks flooding lowands and drenching cities.

Storms continued, rain swept before high winds, fell in the southern sections and snow in the north The situation as reported to the United Press from various sections follow:

Minnesota-Rivers throughout the Mississippi basin overflowing. Sleet demoralizing telegraph and telephone ines and rail transportation.

Wisconsin-Flood waters sweeping down all rivers, menacing cities.

Illinois-The Illinois and other ing. Rain. Heavy loss already reported from floods.

Indiana-Wind and rain with rivers at flood stage.

Michigan-Floods throughout the northern section of the state. One dead in floods.

Ohio-One dead and heavy property loss in wind storm.

Southwest-Rivers in Kansas, Oklahoma, Missouri and .Texas floods. Two dead. Property damage of \$400,000 reported.

The storms are moving northward toward the St. Lawrence and will continue with less force for twentyfour hours, according to the Chicago weather bureau.

Any Legal Obstacle to Conference, Daugherty Says

NOT TO BE WITHDRAWN NOW

Government Will Not Take Action at This Time to End Nation Wide Coal Strike

> By FRED G. JOHNSTON (U. P. Staff Correspondent)

Indianapolis, Ind., April 11.-The government will not take any action now to end the nation wide coa strike, it was learned indefinitely here today.

The conspiracy charges brough by the federal grand jury against 226 operators and union officials under the Sherman anti-trust law wil not be withdrawn formally at this ime as an inducement to interstate vage negotiations between the warring factions.

Attorney General Daugherty after conferring with Federal Judge A. B Anderson and other government of ficials here, announced positively there is no legal obstacle in the way of wage conferences as contended y operators.

Attorney General Daugherty and his aids gathered all available facts in the controversy, trying to devise some means of bringing mine owners into wage conference with union representatives.

It was learned that District Judge A. B. Anderson balked at Daugherty's proposal to drop the governments conspiracy cases charging 226 operators and union officials with violation of the Sherman law.

The attorney general returned to the judge's chambers again today, however, and it was understood he plained his reason in asking that the indictments be quashed was that many operators who had refused to your eyes to the facts in the case enter wage negotiations did so in and govern yourselves accordingly." fear of the charges which were aimed at collective bargaining in the will preach on "Heaven" and Wedcoal industry.

If Judge Anderson agrees, a formal motion to quash the indictments likely will be made. If he does not, the government will direct its work in another channel to end the strike or return to its hands off policy which it pursued before Daugherty formerly of this city, were held this came out from Washington to the seat of union headquarters here.

"The government is not taking sides, but it is interested in seeing that people get fuel at a reasonable price," Dangherty said. He declared the controversies between mine owners and their employees were

PROVE HELL EXISTS

as Jury and Usual Order of Court is Observed

URGES UNBIASED JUDGMENT

Questions and Answers Them With Bibical Quotations

Dr. Munhall's subject at Monday Paul's M. E. church was "Hell." He state is limited in certifying the list a court should be observed. Only facts can be admitted as evidence, he said, and what anyone thinks and human opinion shall be ruled out. The doctor then reminded the jury that the Bible contains the only trustworthy information on the subject; that the most learned man on earth knows absolutely nothing whatever about the matter save what he may have learned from the Bible.

He then reminded the jury that the testimony must be received according to the rules of grammar, logic and common sense. He then asked, Is there a Hell? He cited Prov. 7:27; 15:24; Matt. 23:33; Luke 12:5; Mark 9:43-48 and Psa. 9:17, as proof that there was; and supported it by citing the Bible meaning of the words Perish, Die, Death, Dammed, Damnation, Dethe wicked. His second question was What kind of a place is it? He cited 1 Sam. 33:14; Matt. 13:41, 42; Rev. 14:10; 19:20; 20:10, 14, 15.

His third question was, Is the Punishment Everlasting? and he cited 1 Sam. 33:14; Dan. 12:2; Matt. 3:12: 25:41,46; Mark 9:43, 44; Luke 16:22-26. He then called attention to the fact that everlasting must mean endlessness, for it is used as an adjective to qualify God, Lord, Redeemer, King, Name, Salvation, Love, Light, Kingdom, Foundation, Covenant, Priesthood, Arms, Mercy, Joy, Kindness, Remembrance, Sigh, Life, Power, Gospel, Consolation, Redemption, Inheritance, Heaven, Spirit, Glory, Weight of Glory as well as Punishment, Damnation, Judgment, Destruction and Fire.

Henry Ward Beecher once said: The thought of the future punishment of the wicked which the Bible reveals is enough to make an earthquake of terror in every man's soul. do not accept the doctrine of eternal punishment because I delight in t. I would east in doubts, if I ould, till I fill hell up to the brim: would destroy all faith in it. But that would do me no good. I could not destroy the thing, nor does it help me to take the word everlastng, and put it into a rack like an inquisitor until I make it shriek out some other meaning; I can not alter the stern fact."

His fourth question was this, 'Who go there?" The unwise, Prov. 15:24. Adulterers and adulteresses, Prov. 7:27. Those who fear not Satan, Luke 12:5, self righteous, Matt 22:11-13, Pharisees, Matt. 23:33; All wicked persons, Psa. 9:6, Unbelievers, Rev. 21:8. Those whose names are not written in the Book of Life, clerks necessary. Rev. 20:15.

before you. Be honest. Do not close This evening at 7:30 Dr. Munhall nesday afternoon at 2:30 he will gistration of less than 1,000 voters discourse on "Evolution."

CITES EVIDENCE TO WEDNESDAY LAST DAY FOR FILING

Dr. J. W. Munhall Impanels Audience Final Declarations of Candidacy Will be in When Period For State Delegates Closes

LEGAL ADVERTISMENT TO RUN

M. E. Church Evangelist Asks Four Wednesday Also Last Day For Secretary of State to Certify Candidates to Local Board

Wednesday will be the last day of night's revival meeting at the St. the period to which the secretary of impaneled the audience as a jury of candidates for the primary elecand insisted that the usual order of tion, to be held May 2, and also the last day for candidates for delegate to the state conventions of the political parties to file their declarations of eandidacy.

election commissioners will begin preparing the copy for the primary ballots, which will be the longest on record here. The board has already prepared the copy for the legal adpapers, with the exception of adding the names of the candidates for delegates and the names of candidates who filed their declarations with th secretary of state.

The election board this year is omposed of Loren Martin, clerk of Fine and Costs Amounting to \$133.60 the court who is a member by virture of his office; Vern W. Norris, republican, and Howard E. Barrett,

The law provides that the preinct election officers shall be certified to the election commissioners five days before the date of holdingthe election, which will be April 27. The inspectors will be selected by the acting republican county chairman, Frank H. Green. One sheriff, one clerk and one judge shall be appointed by the republican county chairman and one each of these three officials by the democratic county chairman, John Wallace.

In the past recommendations for these appointments have been made by the county chairmen to the county board of commissioners, who in turn have made the appointments and certified them to county board of election commissioners. A resume of the election laws of Indiana, issued by the state board of election commissioners, copies of which have been received at the court house, do not mention this procedure and simply say that the county chairmen shall certify their appointments to the county election poard.

It still remains the duty of the county commissioners, however, to the state against Myers and Smiley provide the election places and equip is scheduled for trial. them with booths for voting. The commissioners recently designated the voting places, which will be the

FACTORIES SUSPEND WORK URGES SUPPORT

Tipton's Municipal Electric Plant is Wrecked by Storm

Tipton, Ind., April 11.-Workmen of this city were thrown into idleness today by a storm last night which wrecked machinery at the municipal electric plant and caused factories to suspend.

The smoke stack of the light plant was blown over, falling on the Mc-Intosh broom factory, wrecking the Chairman of Executive Committee elevator and doing other damage there. Water poured in through the demolished roof destroyed a large amount of broom corn.

Cars on the union traction line were broken.

After that date the county board of FINED AND GIVEN 100 DAYS IN JAIL

vertisement, to be run in the news- | Ernest Teeters Convicted Under Lazy Husband Act, But Sentence is Suspended by Court.

Against Leonard Ellsbury Paid And he is Released.

Ernest Teeters, who was on trial Monday in the circuit court, charged under the lazy husband act with failing to support his wife, was found guilty by the jury late last night and fined \$1.75 and given a sentence of 100 days in jail. Judge Sparks sustained the fine and sentence, but suspended the jail term, provided that the defendant would make good in the future.

assessed against the defendant by subdued it for the benefits of those the court. The case was given over who came afterwards. WATER SURROUNDS ALL OF RUSHVILLE

Continued from Page One Morgan and Pearl street had considerable water in the streets, and in East First the street was under water for a half block near the race.

During the heavy windstorm last night a portion of the roof on the covered bridge, northeast of here, was blown off, but as far as could be learned today this is the only damage done by the high wind,

Conditions In State

Indianapolis, Ind., April 11.-Rain storms sweeping Central Indiana last night swelled rivers and streams to flood stage today.

Winds of great velocity accompanying the rainfall in some localities laid buildings flat and did other property damage.

Putnam county was struck by a cloudburst and tornado, two and a half inches of rain falling within half an hour. Streets of Greencastle were flooded with water twelve to twenty inches deep. Buildings were wrecked on the farms of Mack Hodges, Gale Morris, Emery Keller and Stanley Humphrey.

A bridge was moved from its foundation at Perkinsville by a twister, which cut a fifty yard swath through the village and farming communities surrounding it. Roofs were lifted from homes and outbuildings were wrecked. The Perkinsville bridge is the only one over White river in a distance of fifteen miles in Madison county.

Streets in the business district of Rushville were flooded by the deluge. Lightning struck a tree near Franklin high school in Ft. Wayne and knocked down Maervin Hiser, a student standing near by.

Lowlands throughout the state were inundated again from heavy rainfall during the past week. Yesterday's storm added velocity to the overflow waters and send bottom land residents to higher ground.

WABASH FALLING

Vincennes, Ind., April 11.-Wabash river fell one-tenth of a foot here last night, but residents behind the levees fear that heavy rains in Northern and Central Indiana will send it back over flood stage within a few days.

KEEP LOOKING YOUNG

It's Easy—If You Know Dr. Edwards' Olive Tablets

The secret of keeping young is to feel young-to do this you must watch your liver and bowels-there's no need of having a sallow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his

patients for years.

Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action yet always effective. They bring about that natural buoyancy which all should enjoy by toning up the liver and clearing the system of impurities.
Dr.Edwards'OliveTablets are known

by their olive color. 15c and 30c.

RIVER FLOODS BEARDSTOWN

Levy Along Illinois River Breaks. But Inhabitants Had Fled.

Beardstown, Ill., April 11.-The west levy at Second street broke at 11:10 a. m. and the Illinois river is flooding twenty-six square blocks of the city.

There was no excitement as the six foot levy caved in as all the inhabitants in the threatened territory moved out several days ago, taking their personal belongings with them.

City officials and national guard officials figured it will take three hours for the levy to fill the basin, which the levy protected.

MOVES HOUSE TO RUSHVILLE

George Higgins, former postmaster of New Salem, has bought a lot at the corner of Spencer and Seventh streets, in this city, of John Knecht and is moving his house from New Salem to Rushville, where he will reside.

HEARS OF SISTER'S DEATH

Mrs. George W. Thomas received word Monday of the death of her sister, Mrs. Lucy Moore of Lewistown, Ill. She was sixty-nine years of age.

DID PAIN DISTURB YOUR SLEEP?

THE pain and torture of rheu-matism can be quickly relieved by an application of Sloan's Liniment. It brings warmth, ease and comfort and lets you sleep soundly. Always have a bottle handy and apply when you feel the first twinge.

It penetrates without rubbing.

Mr. Cox also referred briefly to

Is Taking Up U. S. Sports

Buenos Aires (By Mail to United Press).-Cricket, tennis, bowling, football, even down to ping pongone might find all of them on the sporting page of any Buenos Aires daily. This country in the last few years has fogotten the rough games of colonial days on the pampas and taken to modern athletics as enthusiastically as New York does on a Saturday afternoon.

The international soccer series for South America was played off the calendar, followed by international tennis. Then sportsmen began to talk of raising funds to send a polo team to England. Horse racing always has several columns and golf notices over the week-end appear in such volume that one readily understands the wherefore of the numerous stretches of suburban greens.

Nocturnal tennis played on courts brilliantly illuminated with high candlepower electric globes has already been improved upon and night swimming is the current fad. In fact, there is something of a boom in swimming locally, star performers taking off from the Tigre delta at midnight, bound for the capitol, and others choosing to attempt to cross the Rio de la Plata, a truly Olympain passage. The yacht clubs have followed suit and now night yacht races, are scheduled, so the sporting editor gets little sleep.

One can run a thumb straight down the list through about every known pastime except surf-board riding and elephant hunts and find them in the list. The English churches foster ping pong tournaments, the chess enthusiasts now want to join New York international cable matches and, if you hunt fer enough, you will find the rarest of all local ports, baseball.

DO NOT PREVENT A MINE WAGE PARLEY

Continued from Page One like a circus coming periodically. "But they're not half so much fun to the people who have to buy coal," he added.

John L. Lewis, president of the United Mine Workers, at his desk in headquarters here directing unionization work in open shop coal fields watched Daugherty's movements with interest, but made no move toward a conference. Legal counsel of the miners were also watching Daugherty's activities. The attorney general will return to Washington late today, he said.

TO STAGE OPERETTA

The Fairview high school will stage an operetta entitled "Polished Pebbles" Friday and Saturday nights in the auditorium of the high school building. Special music will be provided by the Glenwood orchestra and Mrs. Epperson of Greenfield will give an entertainment be-

WATER, LIGHT BILLS DUE

Water and light bills are due the city, according to Earl Conway, city treasurer, who reports that many people have neglected to make the payments since the readings last month. On account of the short notice, he has extended the time until April 20, when all bills must be paid, or else the electric service or water taps will be cut off by the superintendent of the plant.

TO HOLD A HEALTH **EXPOSITION IN MAY**

Manufacturers Building and Coliseum at Fairgrounds Will be Scene of Great Undertaking

GIVEN BY HEALTH BOARDS

Every Phase of Health Activity and Disease Prevention Will be Brought Before People

Indiana is to have a State Health Exposition at Indianapolis May 19 27 under auspices of the State Board of Health and Indianapolis City Board of Health in co-operation with a large number of national organizations. Every phase of health activity and disease prevenyou lift it right off with fingers. Truly! tion will be brought before the people by displays, demonstrations, motion pictures, lectures, lessons, models and special features.

> The Manufacturers Building at the State Fair Grounds, with 85,000 square feet of display space, and the Coliseum, seating 8,000 persons, will be the scene of this great undertaking. Co-operating with the State and Indianapolis Boards of Health in this undertaking are the United States Public Health Service, National Health Council, American Public Health Association, American Red Cross American Social Hygiene Association, American Society for the Control of Cancer, Conference of State and Provincial Health Authorities of North America, Council on Health and Public Instruction of the American Medical Association, National Child Health Council, National Committee for Mental Hygiene, National Organization for Public Health Nursing, National Tuberculosis Association, American Child Hygiene Association, National Child Labor - Committee and the Child Health Organization of Amer-

All these organizations will present their respective subjects and activities with live, moving displays, men, women and children from preventable disease, involving a finanial loss of not less than \$50,000,

Individual health education is the great solution to the problem. The gigantic display at Indianapolis is expected to pave the way for a public awakening on the very great importance of raising the public

Queer Turns In News

From Eve To Infinity With Shaw's New Play

(Written for The United Press)

tre Guild's notable production of Shaw's "Back to Methuselah," aside from being the most interesting theatrical experiment of recent years has made us realize more than ever the difference between "enjoyment" and Heads of the British Isles, the Archinterest."

No organization in the history of the theatre stands so high in the field of service as the Theatre Guild. In producing this dramatized summary of Bernard Shaw's philosophy-a eycle of three performances-the Guild has done so with full knowledge that such an achievement could scarcely be a commerical success.

Yet the interest in this difficult undertaking has been so great that enough tickets were sold before the first cycle to insure the Guild against financial loss.

And interest means the unusual experience of attending three successive weeks to see the unfolding of cycles from the Garden of Eden and as far as thought can reach.

The first performance lasted from one detail. eight until twelve, the second was so

"In the Beginning," the first part the first performance, shows derly Gentleman," Adem and Eve, oppressed by the Bruning gave an overpowering memmeaning of life and death from the began decidedly to camouflage itserpent.

must have an appeal to many cults today is: "You imagine what you desire. You will what you imagine, and at last you create what you

A thousand years later Eve, having seen that men are deteriorating because of the short duration of life to understand the meaning of existence and to fulfill its promise. Her desire is the first step toward cre-

UNITED FIGHT TO CAPTURE PENNSY

sylvania Shows Unified Party, . Hopeful for a Victory

REPUBLICANS SHOW WEAKNESS

One Reason For G.O. P. Not Having Upper Hand of Situation

By DALE VAN EVERY

Harrisburg; Pa., April 11.—The political campaign in Pennsylvania this year promises to be the most interesting in many years. With an amazing rapidity, the strategic posibeen reversed. Instead of an highly organized Republican party, scornfully ignoring a weak and divided Democratic minority, this campaign finds united Democratic party determined to take advantage of Republican lack of leadership.

The death of Vois Penrose threw into disarray the well oiled Republican machine in Pennsylvania. In the place of the overtowering figure who controlled the destinies of the party there are now a score of big and little bosses who have failed to get together. The Republicans are going into the primaries with a multiplicity of elbowing. Candidates attacking one another with ammunition usually used against Democratic opponents.

On the other hand, the Democrats usually divided into bitterly warring factions, as a result of harmony conference have arranged a complete state ticket which has the declared support of all wings of the party and will therefore need to waste no effort in primary intra-party bickering.

At the election next November the ace, the parliament building. voters of Pennsylvania will elect two United States Senators (the successors to Knox, and Penrose), congressmen and a complete state ticket: Sitting in-the Senate now the Repubicans have George Wharton Pepper in the seat of Penrose and William E. Crow in the place of Knox, It is evidence of Republican lack of unity that no decision has yet been reached concerning how these two senatorcratic clutches.

Mayor David A. Reed of Pittsburgh, has practically uncontested Republican support to succeed, Crowe who has been sick in hospital for months. Pepper seems equally certain of little contest within Republican ranks and will be nominated without question as Penna's other United States senator.

The Democrats have named Col. Frederick Kerr to run against Pepper and Judge Sameul S. Shull against the Republican who takes Crow's place. TheDemocratic state ticket as whole led by John A. McSparran, former candidate for governor, will make a vigorous attack on the Republican record. There are few indications that Pennsylvania, so long fixed in the Republican column, will turn Democratic this year However, if the Republican party proves unable to restore harmony within its ranks, the Democrats will probably have the best chance of the last several decades.

The candidacy of Clifford Pinchot, famous conservationist and former progressive, for Republican nomination for Governor is a most interesting element in the primary campaign Pinchot has not the support of any group of the Republican organization which is divided among four other candidates, but personally he is believed here the strongest figure in the race. There are indications that he will pick up most of the woman vote and it is possible that, machine as he is, he may win the Republican nomination for governor.

TO BE REAL TRADE EXHIBIT

Lack of Leadership Is Said To Be Colonel's Experience as Director of Panama Pacific Exposition Stands Him in Good Stead

By MILES W. VAUGHN (U. P. Staff Correspondent)

Rio De Janerio (By Mail to United Press).-The dynamic personality of Colonel David C. Collier, commissioner general of the United States to the Brazilian Centenary Exposition, already has done much o insure success of American participation in the celebration.

Colonel Collier arrived recently. With characteristic American energy he started work at once. His first move was a campaign to make the exposition a real trade fair, with exhibitors from all the world and salesmen to take orders for merchandise on the spot.

The Commissioner General purhased a plot of ground near the nd of the Avenieda Rio Branco, on the shore of Gunanabara Bay, for the site of the exposition building of the United States. The price paid vas \$50,000.

Colonel Collier's experience as diector of the Panama Pacific Expoition in San Diego is standing him in good stead and he already has ccome a virtual advisor to the commission of the cafes any too modest bout it. One managing preparations for the exposition. The government has arranged temporary offices for the Americans in the Monroe Pal-

Other members of the American commission already in Rio include: Levi Grant Monroe, chief executive assistant to the commissioner general; F. W. Leach, chief disbursing officer, and a number of secretaries.

This Great Sale of Kitchen Cabinets Ends on Saturday. Get Yours Before Saturday Night.

HOOSIER SPECIAL

Now Offered at a Genuine Saving of

\$20

If you haven't already taken advantage of this opportunity to save \$20 of the price of a genuine * HOOSIER Cabinet, do so before the end of the sale Saturday night.

This saving was made possible by the co-operation of the HOOSIER Company. They have given us an exceptionally low price on an unusually fine model of the HOOSIER, in anticipation of lowered costs due to increased production. We in turn are selling this HOOSIER at an abnormally close figure.

These HOOSIER SPECIAL Cabinets compare in every way with the old HOOSIER BEAUTY which this store has been selling for years at exactly \$20 more than our sale price-making this the biggest value-giving kitchen cabinet event we have ever offered.

Sale Ends Saturday

Don't hesitate longer. You need the HOOSIER. Every day you do without it you pay for it in wasted energy and lost opportunities for rest and recreation. Get your HOOSIER while you can buy it at a saving of \$20.

delivers

During this sale we not only give you a genuine HOOSIER Cabinet at a saving of \$20, but we permit you to buy it on the easiest terms. Why go on doing your work indrudgery when a single payment of \$1.00 puts this great kitchen convenience in your home?

No Extra Charge for These Special Terms

ANTHRACNOSE IS PRESENT IN STATE

Fungus Disease is Worse Kind Attacking Raspberries-Much More Serious on Black Raspherries

IS CAUSE OF MUCH LOSS

Disease Can be Recognized by Small, Elliptical or Circular Spots on The Canes

Anthrachose is without question the worse disease attacking raspberries in Indiana. It is much more serious on black raspberries than on red. Blackberries, may also be attacked, but usually not as seriously as the raspberries.

"This fungus disease can be recognized by the small, elliptical or circular spots which occur on the canes. These are at first small and purplish in color, becoming grayish white with a purple margin, and are the disease and anything which will a checking or cracking of the bark, help to hold the disease in check. particularly at the base of the canes. It also causes much loss in Indiana by killing the young canes and also the small branches and stalks of the fruit clusters, causing the sudden this insect as well as the anthracdying and drying up of the fruit," says the Botanists of the Purdue University Experiment Station.

begin at once. The following methods are recommended.

1. If the old canes have not been removed this should be done and uneven surfaces. they should be burned. It is much better to do this as soon as the fruiting season is over as they serve an excellent substitute.

2. Spray, while the canes are dormant, with lime sulphur 1.8, or 64 gallons of the concentrated solution in 50 gallons of water. A second spraying should be given when the canes are six or eight inches high, and a third just before the blossoms appear, using for these two high, lime sulphur diluted, 11 gallons to 50 gallons of water.

3. A relatively short rotation should be practiced.

4. In setting out new plantings carefully examine the cuttings used to make sure that they are free from anthracnose spots. Otherwise the disease will be introduced on the cuttings. If the plantation is started by division of the old roots care should be taken that the old stems are cut off very close to get rid of all the source of infection. New patches should be sprayed from the first, as outlined above.

5. Clean cultivation of the patch is also essential and weeds should never be allowed to develop as they interfere with air circulation. Moisture is necessary for the spread of frequently so abundant as to cause facilitate its rapid evaporation will

Another serious enemy of raspberries is the scale. The dormant spray mentioned above will control

INJECTING SWINE IN FLANK MEANS SAVING

Use of Ham or Shoulder Often Results in Infection.

Department of Agriculture Urges Veterinarians to Avoid Possibility of Injury by Selection of Some Other Place.

(Prepared by the United States Department of Agriculture.) Complaints from packers indicate that there are still many veterinarians and farmers who persist in immunizing hogs against cholera by making injections in the ham or shoulder, a practice that often results in infection and the formation of deep abscesses in the hams and shoulders where the serum and virus were injected. The United States Department of Agriculture has long advised against using those parts as points of injection, and the department veterinarians are instructed to avoid the possibility of such

injury by selecting some other place.

Injecting Hog in the Flank.

at this point, but they can be made with equal success in less valuable parts, such as the flank or auxiliary space, where there is loose connective tissue that readily absorbs the serum. between the legs, and the needle should be directed so as to avoid the muscles of the shoulder.

It desirable to make the injections at a point that will make drainage easy should an abscess form. Serum should never be injected into a mass of fatty tissue, as it is not sufficiently absorptive. Although the serous membrane lining in the abdominal cavity takes up serum readily, abdominal injections are not recommended because of the danger of puncturing the internal organs with the needle or of carrying infection into the

Small pigs and shotes up to 80 pounds in weight may be held up by the hind legs, with the forefeet resting on the ground, and the injection made into the loose tissue of the flank. A pig so held is in a good position for the taking of temperature, cleansing is better than either grain alone. Althe area of operation, and making the falfa or even clover hay will pay good injection. Farmers' Bulletin 834, which has been recently reprinted, contains full information regarding hog cholera and the methods of control.

The ham has been favored as a place In making an auxiliary injection the in one hand while the pole telescopes development. for making the injections because they front legs should be spread apart so to the length of a walking stick.

HELP EFFICIENCY OF HORSE

Numerous Inquiries Received at Missouri College of Agriculture for Hitches.

Farmers are making use of power in larger units than ever before. Numerous inquiries for three-horse hitches for wagons and five to eight-horse hitches for plows are being received by the Missouri College of Agriculture, says J. C. Wooley of the agricultural engineering department. The three-horse load will take but little more of the man's time than the two, but his efficiency has been increased 50 per cent.

Oats Best for Sows.

Oats is a much better grain for prood sows than corn, and a mixture of about equal parts of oats and corn returns when fed to brood sows.

Alfalfa Bad for Horses.

It seems advisable, judging from the results of experiment, not to feed a heavy alfalfa ration with corn to So thin is the material of a new growing horses, particularly to puretent that it can be folded and carried breds when seeking the best possible

Tuesday-The Call for Clear

Take heed that ye be not led astray. St. Luke 21:8. Read St. Luke 20:27-47; 21:1-9.

"Religious zeal does not necessarily argue ethical enlightenment. Meditation: Millions have been led astray regarding Christ's promise to return. Someone is going astray today. A mI sure that it is not my brother? Even the disciples of Jesus were mistaken both with regard to His first mission and His second

Prayer: (For the coming of Christ) in His own way in me and in the world.) O Thou Father of Jesus, we bless Thee for the Matchless One, and for His victorious life and death. May no shallowness or hyprocrisy vitiate our allegiance to Him. Save us, we beeseech Thee, from choosing any other foundation for our lives. If there are Gethsemanes and Calvaries for us to brave, may His spirit not fail us in the testing; and grant us the joy of the Easter song of life that de fies death, now and always. Fulfill our desires, we entreat Thee, through the crucified and risen Lord. Amen.

Dear Lord and Father of Mankind, Forgive our feverish ways, Reclothe us in our rightful mind; In purer lives Thy sevice find, In deeper reverence, praise.

NOT TO CONSIDER POLITICS

Indiana Farmers' Federation Will Take No Part In Election

Goshen, Ind., Apr. 11-Certain organizations of farmers of Indiana have taken the position that their members are not warranted in giving support to candidates for political offices who do not own at least 160 acres of farm land.

The question was discussed at some length at a district meeting of Indiana Federation of Farmers here, but the delegates decided that the association should not take a partisan position in the forthcoming primaries and the elections of next fall. It was decided, however, that the association would give its support to individual candidates who were favorable to the farmer.

ILLINOIS LEADS IN BUILDING

State Constructed 341 Miles of Perma nent Hard Roads in 1920, Setting New Record.

One of the most interesting developments of the last ten or fifteen years has been the complete rehabilitation of the road, in its age-long role as one of the chief means of communication. The years that intervened between the coming of the railway and the coming of the motorcar saw a great silence and a great quiet settle down over vast numbers of the world's highways, says Christian Science Monitor. The motorcar, however, has changed all that, and today states and countries are vying with one another in the matter of road building, as to both quantity and quality. All honor, therefore to the state of Illinois with its 341 miles of new permanent hard roads, last year, "a record for such construction in any state in the Union prior to

COW WILL INCREASE INCOME

Animal Is Most Efficient Money Maker on Farm and Is Entitled to Good Treatment.

E. A. Hanson, dairy extension specialist at University farm, renews the inquiry, "Are you keeping cows or are they keeping you," in a collection of feeding suggestions recently issued by

"Put the cow to work," he says, "and she is the most efficient money maker on the farm today. A cow producing 25 pounds of 4 per cent milk daily makes one pound of butterfat a day, worth about 50 cents. This cow needs rations and hay and silage which should not cost more than 15 cents daily, leaving 35 cents daily above the cost of her feed. Where can you invest your time and efforts to bet ter advantage? Give your cows a chance. They are all capable of doing better when properly fed."

Don't Neglect a Cold

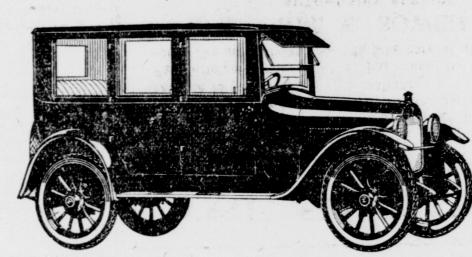

Mothers; don't let colds get underway; at the first cough or sniffle rub Musterole on the throat and chest.

Musterole is a pure, white ointment, made with oil of mustard. It draws out congestion, relieves soreness, does all the work of the good old-fashioned mustard plaster in a gentler way, without the blister.

Keep a jar handy for all emergencies, it may prevent pneumoniain your home. 35 & 65c in jars & tubes; hospital size, \$3. BETTER THAN A MUSTARD PLASTER

Hupmobile Finely Built

It is almost impossible to wear out the Hupmobile. The first Hupmobiles, built 12 and 13 years ago, are in use today, all over the world.

Owners, and those who buy in the used car markets, would tell you its depreciation is slower and smaller; that its price as a used car is proportionately higher.

Back of its longer life and rare economy, is, of course, the way the Hupmobile is built.

The fact is that many of its important parts are identical, in material and in manufacturing costs, with the same parts in the cars of the highest price; and Hupmobile shop practices are exceptionally fine and close.

An Affair of Honor

San Francisco, Calif., April 11. visited Mr. and Mrs. Green Thomp- Literary and artistic circles of northern California were buzzing with excitement today as a result of publication of lurid accounts of an "affair of honor" said to have been indulged in last Saturday by Harry Leon Wilson, author, and Theodore M. Crilley, landscape artist.

> Yankee Point, five miles from Carmel-by-the-Sea, noted as a literary and artists colony, was said to have been the scene of the encounter. Fists covered only by riding gloves were named as weapons.

Crilley, the accounts had it, was the victor, three times knocking Wilson to the ground.

But it was claimed, Wilson was never vanquished and left hurling a challenge at Crilley to the effect that he would make him "pay and pay and pay."

The feud, according to the story told, started last year when Crilley and his wife and Mr. and Mrs. Wilson took parts in "Pomander's walk" a play staged at Carmel-bythe-Sea, by writers and artists.

Wilson is said to have challenged The actual encounter last Satur-

day was described, allegedly by witnesses, as carried out according to all the customs of the code duello excepting as to weapons. Wilson appeared with two seconds it was stated, while Crilley came alone and made it known he had pledged his wife he would not strike the first

Neither of the principals will discuss the story of the affair.

Modern mining methods have made feasible that development of deposits of iron ore in Switzerland that were abandoned more than 40 years ago.

WATER SURROUNDS ALL OF RUSHVILLE

Cloudburst Monday Evening and Heavy Rains During Night Bring on Flood Conditions.

FLATROCK IS RUNNING WILD

Concrete Dam Northeast of City Swept Away by Rising Waters-Roof on Bridge Blown Off.

Rushville was almost completely surrounded with water Monday even ing and today as the result of the excessive rainfall of the past few days, every small stream was on a rampage, making the local situation the worst since the 1913 flood.

The streams were rising today as the result of the heavy deluge which almost resembled a cloudburst late Monday, and the heavy rains during the night. Flatrock, which had been out of its bounds since the middle of last week, was going wild this morning, but it was not expected to reach the serious stage that it did in

Hodges branch, which runs diagonally through the northwest portion of the city, was causing high waters in that section of the city, but there was not as much water as usual during a heavy rain. The water was flooding the streets in North Sexion, North Arthur, Seventh, Eighth and Ninth, in this vicinity, and it was necessary early today and late Monday for the traction III NOT PREVENT company to transfer passengers around the high water, as the cars could not operate through it.

This situation, however, was soon relieved as the rain ceased and the water was going down in this section shortly before noon.

Platrock flooded all the territory north of here for several miles, and water was across the roads at various places between here and Gings. The dam, built of concrete, located on the Green and Green farm, just northeast of here, was reported to have been swept away by the rising water, and this caused the water to collect in large quantities over the lowlands south and to the east of Rushville.

The fields and pastures east and south of Rushville were under water feet, and the water had into the streets bordering close to the race. South Perkins, Continued on Page Three

PRESENCE OF JAPAN

Question Raised at Economic Conference by Count Chitcherin Like a Bomb Shell /

BIGGEST SURPRISE OF PARLEY

(By United Press)

Genoa, April 11.-Protest against the presence of Japan at Genoa was raised at the economic conference's first meeting this afternoon George Chitcherin, head of the Russian delegation.

Count Ishii of the Japanese delegation retorted that Japan was here to stay whether Chitcherin liked

The Russian spokesman fulfilled the roll assigned him by observers as the "leader of the opposition" to Lloyd George at the conference. Today when the conference was divided into four committees, Chitcherin addressed the political branch of the parley, declaring Japan should not be represented at Genoa. He suggested the Eastern empire was not likely interested in strictly European

The demand for Japan's withdrawal came as a bomb shell to the delegates. It was the biggest surprise of the conference so far.

Japan is a member of the allied supreme council and has been such since the war. Her statesmen has always taken part in general Euro pean deliberations.

Chitchefin also presented a program of the several governments for rehabilitation of Europe and reiterated his statement of yesterday

Flood at a Glance

(By United Press)

Floods caused damage amounting to millions of dollars throughout vestern states today.

Rivers, swollen by days of rain overflowed their banks flooding lowlands and drenching cities.

Storms continued, rain swept be fore high winds, fell in the southern sections and snow in the north The situation as reported to the United Press from various sections

Southwest-Rivers in Oklahoma, Missouri and .Texas floods. Two dead, Property damage of \$400,000 reported.

The storms are moving northward toward the St. Lawrence and will continue with less force for twenty four hours, according to the Chiweather bureau.

MINE WAGE PARLEY

Conspiracy Charges Do Not Offer Any Legal Obstacle to Conference. **Daugherty Says**

NOT TO BE WITHDRAWN NOW

Government Will Not Take Action at This Time to End Nation Wide Coal Strike

By FRED G. JOHNSTON.

(U. P. Staff Correspondent) Indianapolis, Ind., April 11.-The government will not take any action now to end the nation wide coal strike, it was learned indefinitely here today.

The conspiracy charges brought by the federal grand jury against 226 operators and union officials under the Sherman anti-trust law will not be withdrawn formally at this wage negotiations between the warring factions.

Attorney General Daugherty after conferring with Federal Judge A. B. Anderson and other government officials here, announced positively there is no legal obstacle in the way of wage conferences as contended

by operators. Attorney General Daugherty, and his aids gathered all available facts in the controversy, trying to devise some means of bringing mine owners into wage conference with union

representatives. It was learned that District Judge A. B. Anderson balked at Daugherty's proposal to drop the governments conspiracy cases charging 226 operators and union officials with violation of the Sherman law.

The attorney general returned to the judge's chambers again today, however, and it was understood he advanced his proposal again. He explained his reason in asking that the indictments be quashed was that many operators who had refused to enter wage negotiations did so in fear of the charges which were aimed at collective bargaining in the coal industry.

If Judge Anderson agrees, a formal motion to quash the indictments likely will be made. If he does not, the government will direct its work in another channel to end the strike or return to its hands off policy which it pursued before Daugherty came out from Washington to the

seat of union headquarters here. "The government is not taking sides, but it is interested in seeing that people get fuel at a reasonable price," Daugherty said. He declared the controversies between mine that disarmament must be consider—owners and their employees were funeral this afternoon.

CITES EVIDENCE TO WEDNESDAY LAST PROVE HELL EXISTS

as Jury and Usual Order of Court is Observed

URGES UNBIASED JUDGMENT

M. E. Church Evangelist Asks Four Questions and Answers Them With Bibical Quotations

Dr. Munhall's subject at Monday night's revival meeting at the St. the period to which the secretary of Paul's M. E. church was "Hell." He impaneled the audience as a jury and insisted that the usual order of a court should be observed. Only facts can be admitted as evidence; he said, and what anyone thinks and human opinion shall be ruled out. The doctor then reminded the jury that the Bible contains the only trustworthy information on the subject; that the most learned man on absolutely nothing earth knows whatever about the matter save what he may have learned from the

He then reminded the jury that the testimony must be received according to the rules of grammar, logic and common sense. He then asked, Is there a Hell? He cited Prov. 7:27: 15:24; Matt. 23:33; Luke 12:5; Mark 9:43-48 and Psa. 9:17, as proof that there was; and supported it by citing the Bible meaning of the words Perish, Die, Death, Dammed, Damnation, Destroy, Destruction, Perdition and Punished, as applied to the doom of the wicked. His second question was What kind of a place is it? He cited 1 Sam. 33:14; Matt. 13:41, 42; Rev. 14:10; 19:20; 20:10, 14, 15.

His third question was, Is the Punishment Everlasting? and he cited 1 Sam. 33:14; Dan. 12:2; Matt. 3:12; 25:41,46; Mark 9:43, 44; Luke 16:22-26. He then called attention to the fact that everlasting must mean endlessness, for it is used as an adjective to qualify God, Lord, Redeemer. King, Name, Salvation, Love, Light, Kingdom, Foundation, Covenant, Priesthood, Arms, Mercy, Joy, Kindness, Remembrance, Sigh, Life, Power, Gospel, Consolation, Redemption, Inheritance, Heaven, Spirit, Glory, Weight of Glory as well as Punishment, Damnation, Judgment, Destruction and Fire.

Henry Ward Beecher once said The thought of the future punishment of the wicked which the Bible reveals is enough to make an earthtime as an inducement to interstate quake of terror in every man's soul. that would do me no good. I could the voting places, which will be the not destroy the thing, nor does it help me to take the word everlastinquisitor until I make it shriek out some other meaning; I can not alter the stern fact."

His fourth question was this Who go there?" The unwise, Prov. 15:24. Adulterers and adulteresses, Prov. 7:27. Those who fear not Satan, Luke 12:5, self righteous, Matt. 22:11-13, Pharisees, Matt. 23:33; All poll clerks may be appointed in case wicked persons, Psa. 9:6, Unbeliev- the country board of election comers, Rev. 21:8. Those whose names missioners deem such additional are not written in the Book of Life, clerks necessary. Rev. 20:15.

do not believe the Bible; if I did I commodated by the two regular would have to believe in hell." The clerks and it is the judgment of this speaker then said, "the evidence is department, as well as of the state before you. Be honest. Do not close board of county election commiss your eyes to the facts in the case loners in exercising its right of disand govern yourselves accordingly."

will preach on "Heaven" and Wednesday afternoon at 2:30 he will gistration of less than 1,000 voters discourse on "Evolution."

FUNERAL OF MRS. SLOAN

Funeral services for Mrs. Lou Sloan, widow of James Sloan, formerly of this city, were held this morning at her home in that city. nephew of this city, attended the

DAY FOR FILING

Dr. J. W. Munhall Impanels Audience Final Declarations of Candidacy Will be in When Period For State Delegates Closes

LEGAL ADVERTISMENT TO RUN

Wednesday Also Last Day For Secretary of State to Certify Candidates to Local Board

Wednesday will be the last day of state is limited in certifying the list of candidates for the primary election, to be held May 2, and also the last day for candidates for delegate to the state conventions of the political parties to file their declarations of candidacy.

After that date the county board of commissioners will begin preparing the copy for the primary ballots, which will be the longest on record here. The board has already prepared the copy for the legal advertisement, to be run in the newspapers, with the exception of adding the names of the candidates for delegates and the names of candidates who filed their declarations with the secretary of state.

The election board this year is composed of Loren Martin, clerk of the court who is a member by virture of his office; Vern W. Norris, republican, and Howard E. Barrett, democrat.

The law provides that the precinct election officers shall be certified to the election commissioners five days before the date of holding the election, which will be April 27. The inspectors will be selected by the acting republican county chair man, Frank H. Green. One sheriff one clerk and one judge shall be appointed by the republican county chairman and one cach of these three officials by the democratic county chairman, John Wallace.

In the past recommendations for these appointments have been made by the county chairmen to the county board of commissioners, who in turn have made the appointments and certified them to county board of election commissioners. A resume of the election laws of Indiana, issued by the state board of election commissioners, copies of which have been received at the court house, do not mention this procedure and simply say, that the county chairmen shall certify their appointments to the county election Stewart.

county commissioners, however, to the state against Myers and Smiley I would east in doubts, if I provide the election places and equip could, till I fill hell up to the brim: them with booths for voting. The I would destroy all faith in it. But commissioners recently designated same as in the last general election.

No extra clerks will be employed the state board of accounts, that none should be engaged unless at least 1,000 votes are polled in the

The state board's ruling in this question says:

"In larger precincts, two assistant

"We have carefully estimated the A leading universalist once said "I number of voters that may be accretion in such matter would not be This evening at 7:30 Dr. Munhall warranted in providing for assistant

"Said assistant clerks shall receive the same compensation as is paid to the regular poll clerks."

Tipton's Municipal Electric Plant is Wrecked by Storm

Tipton, Ind., April 11.-Workmer of this city were thrown into idleness today by a storm last night which wrecked machinery at the municipal electric plant and caused factories to suspend. The smoke stack of the light plant

was blown over, falling on the Mc-Intosh broom factory, wreeking the Chairman of Executive Committee elevator and doing other damage fhere. Water poured in through the demolished roof destroyed a large amount of broom corn.

Cars on the union traction line were marooned wherever they happened to be at the time of the storm when their power was stopped. High ten sion wires and telephone lines were blown down and windows were

FINED AND GIVEN 100 DAYS IN JAII

Ernest Teeters Convicted Under Lazy Husband Act. But Sentence is Suspended by Court.

JURY OUT OVER SIX HOURS

Fine and Costs Amounting to \$133.60 Against Leonard Ellsbury Paid And he is Released.

Ernest Tecters, who was on tria Monday in the circuit court, charged under the lazy husband act with failing to support his wife, was found guilty by the jury late last night and fined \$1.75 and given a sentence of 100 days in jail. Judge Sparks sustained the fine and sentence, but suspended the jail term, provided that the defendant would make good in the future. The costs in the case also were

assessed against the defendant by the court. The case was given over to the jury yesterday afternoon about 2:30 and it was not until after nine o'clock that they reached an agreement, and at several times it was said that a verdict seemed impossible because of the wide difference existing between the jurors.

The following twelve men heard the case yesterday: Ollie M. Brown, John H. Collins, John E. Harrison, John E. Roth, Leonard Booth, Theodore Abererombie, Albert Hollowell, Jesse Logan, W. A. Caldwell, Ed Walker, Brue Matlock and James GLOSED SEASON TO

It still remains the duty of the vice again Friday when the case of GO IN EFFECT APR. 30 is scheduled for trial.

The fine and costs amounting to \$133.60 assessed by a jury in the circuit court several days ago, against Leonard Ellsbury, was paid this morning by relatives of the Caming, and put it into a rack like an in the voting precincts, which is in bridge City man, who together with accordance with a recent ruling of Frank Gerrian, was convicted , of having liquor in his possession at Glenwood. Gerrian paid his fine after the trial, but Elisbury had remained in jail since March 31, when the trial was held. The raid was made at Glenwood on March 24.

The jury will hear another liquor case Friday, when the case of the state against William Myers and Cliff Smiley is to be tried. These and urge that violations such as takyoung men are charged with the unlawful possession following a raid time, and the like, be promptly rerecently on a barber shop located in Rushville, when the officers found seven quarts of whisky.

A venire of twenty names was ordered today for the case Friday and the twelve jurors yesterday were discharged for this term of court. The "The effort which the local fish and first twelve drawn for Friday will constitute the regular panel.

Miles S. Cox Speaks to Rotary Club, Récalling Some Incidents in Early History of County

RESPECT DUE THE PIONEERS

Relates Outstanding Points in Development of County

Miles S. Cox, chairman of the executive committee in charge of the arrangement for the celebration of the Rush county centennial, to be held in June, asked the support of Rotary club and other civic welfare organizations, and made a short, entertaining talk about the early history of Rush county, at the regular meeting of the Rotary club today

The Rotarians were also entertained with a few musical numbersby Miss Vivian Harris, cornetist; Miss Gladys Titsworth, violinist, and Miss Rowena Kennedy, soprano and accompanist.

Mr. Cox urged a deeper appreciation of the work of the pioneers who made possible the blessings we enjoy today, referring to the century of improvements in Rush county as something which could not have been accomplished had it not been for the hardships of our forefathers.

He pointed out that no nation can endure without a history that inspires loyalty, recalling that Americans as school children, get their first conception of Americanism by studying the lives of Washington, Lincoln, McKinley and other great Americans. To these we are all obligated for what we have as a nation today, he said.

"In a narrow sense," the speaker continued, "we are under deep obligations to our forefathers who came into the tractless wilderness and subdued it for the benefits of those who came afterwards. They made the land ready for the plow, built roads, churches, schools and homes, the result of which we enjoy today.'

Mr. Cox said that Rush county was a part of The Great Purchase, and that the government commissioners hought what is now known as the corn belt through Indiana for \$13,000 from the Delaware Indians. Dr. William B. Laughlin, he said,

Bluegills and Bass Will be Pretected by Indiana Law Until June 16 **Local Fishermen To Help**

SOME VIOLATIONS CITED

Members of the Rush County Fish and Game Protective association have called attention to the fact that the closed senson on bluegills and bass goes into effect April 30 and continues until June 16. The season is established by an Indiana law. Members of the association will co-operate in enforcing the statute ing bass off nests in spawning ported to the wardens.

"The fundamental reason why fish matters are not in the shape desired is because there, has not been enough foresight and a broad enough viewpoint," a local member says. game protective association should put forth to protect wild and aquatic life should be along the line of appeals and educational propagan-Washington, April 11.—Secretary da, which will awaken the better nature of law violators."

Such work may cause them to desist violating laws, it is contended. can do in this matter is hardly posseason law on game fish work to others must be interested, and if they are, then public waters will soon be replete with food fishes for they will spawn and propagate in patural habitats unmolested," it is bointed

Filipinos Please Crowds

Domingo's Filipino Serenaders, who are holding forth at the Princess theater the first half of this week, pleased large audiences Monday evening with their singing and instrumental numbers. They will remain until Wednesday night and their program will be completely changed tomorrow.

Domingo is regarded as the greatest Filipino violinist and the work of his company is unusually high class. They recently played a week's engagement at the Circle theater in Indianapolis and have appeared in many of the leading motion picture and vaudeville houses of the coun-

The dancing of Princess Cleo is also attractive and adds to the popularity of the program. Marie Provost also appears again tonight in "Don't Get Personal."

Artist Paints Title Pieces

Benjamin B. Hampton's powerful Curtha Waggoner, a farmer living ing a great, sweeping, thrilling story and was fined \$1 and costs, amountof love, adventure and mystery in ing to \$8.50, which was paid.

1921 Arizona. Once it was considered in a picture abounding in thrills and suspense that little attention need he paid to the finer details. Those days are past in the movies, and now a hundred subtle appeals will undoubtedly add to your enjoyment of "The Mysterious Rider," which plays at the Mystic Theatre for the last time today.

The services of Ferdinand Pinney Earle, an internationally famous artist, were obtained for the production of the art backgrounds of the written titles. Mr. Earle is a student of the great Whistler, and is noted for the versatility of his brush in the fields of landscape, marine, group and portrait art. Seeing "The Mysterious Rider" is like touring the famous gallaries that are rich with the work of the old masters. Combined with the wonderful musical score, Mr. Earle's paintings aid in making "The Mysterious Rider" splendid art work as well as thrilling, human story of romance and adventure.

WATER SURROUNDS ALL OF RUSHVILLE

Continued from Page One Morgan and Pearl street had considerable water in the streets, and in East First the street was under water for a half block near the race.

During the heavy windstorm last night a portion of the roof on the covered bridge, northeast of here, was blown off, but as far as could be learned today this is the only damage done by the high wind.

Conditions In State

Indianapolis, Ind., April 11.-Rain storms sweeping Central Indiana last night swelled rivers and streams

to flood stage today. Winds of great velocity accompanying the rainfall in some localities laid buildings flat and ilid other roperty damage.

Putnam county was struck by a cloudburst and tornado, two and a half inches of rain falling within half an hour. Streets of Greencastle were flooded with water twelve to twenty inches deep. Buildings were wrecked on the farms of Mack Hodges, Gale Morris, Emery Keller and Stanley Humphrey.

A bridge was moved from its foundation at Perkinsville by a twister, which cut a fifty yard swath through the village and farming communities surrounding it. Roofs were lifted from homes and coutbuildings were wrecked. The Perkinsville bridge is the only one over White river in a distance of fifteen miles in Madison county.

Streets in the business district of Rushville were flooded by the deluge. Lightning struck a tree near Franklin high school in Ft. Wayne and knocked down Maervin Hiser, a student standing near by.

Lowlands throughout the were inundated again from heavy rainfall during the past week. Yesterday's storm added velocity to the overflow waters and send bottom land residents to higher ground.

WABASH FALLING

Vincennes, Ind., April 11.-Wabash river fell one-tenth of a foot here last night, but residents behind the levees fear that heavy rains in Northern and Central Indiana will send it back over flood stage within a few days.

politics in the county. He mentioned some of the men who have reflected glory and honor on Rush county.

First and foremost of these was Gen. P. A. Hackleman, the only the tentative plans for the centen-Indiana brigadier-general killed in nial. the civil war. He included in this group Gov. Samuel Bigger, who was a resident of this county when elected; Finley Bigger, who served as registrar of the treasury under the Mr. Cox described the meetings of Pierce and Buchannan administra-

and also discussed briefly the early ernor; John K, Gowdy, who was consul-general to Paris, and Cour adopted son, Senator James E. Watson.

Mr. Cox also referred briefly to

Buenos Aires Is Taking Up U. S. Sports

Buenos Aires (By Mail to United Press).-Cricket, tenms, bowling, football, even down to ping pongone might find all of them on the sporting page of any Buenos Aires daily. This country in the last few years has fogotten the rough games of colonial days on the pampas and taken to modern athletics as enthusinstically as New York does on a Saturday afternoon.

The international soccer series for South America was played off the calendar, followed by international tennis. Then sportsmen began to talk of raising funds to send a polo team over the week-end appear in such volume that one readily understands the wherefore of the numerous 1922. stretches of suburban greens.

Nocturnal tennis played on courts brilliantly illuminated with high candiepower electric globes has already been improved upon and night swimming is the current fad. In fact, there is something of a boom in swimming locally, star performers taking off from the Tigre delta at midnight, bound for the capitol, and others choosing to attempt to cross the Rio de la Plata, a truly Olympain passage. The yacht clubs have followed suit and now night vacht races, are scheduled, so the sporting editor gets little sleep.

One can run a thumb straight down the list through about every known pastime except surf-board riding and elephant hunts and find them in the list. The English churches foster ping pong tournaments, the chess enthusiasts now want to join New York international cable matches and, if you hunt far enough, you will find the rarest of all local ports, baseball.

DO NOT PREVENT A MINE WAGE PARLEY

-Continued from Page One like a circus coming periodically. - "But they're not half so much fun to the people who have to buy coal," he added.

John L. Lewis, president of the United Mine Workers, at his desk in headquarters here directing unionization work in open shop coal fields watched Daugherty's movements with interest, but made no move toward a conference. Legal counsel of the miners were also watching Daugherty's activities. The attorney general will return to Washington late today, he said.

TO STAGE OPERETTA

The Fairview high school will tage an operetta entitled "Polished Pebbles" Friday and 3 Saturday nights in the auditorium of the high school building. Special music will be provided by the Glenwood orchestra and Mrs. Epperson of Greenfield will give an entertainment be-

WATER, LIGHT BILLS DUE

Water and light bills are due the ity, according to Earl Conway, city treasurer, who reports that many people have neglected to make the payments since the readings last month. On account of the short notice, he has extended the time until April 20, when all bills must be paid, or else the electric service or water taps will be cut off by the . superintendent of the plant.

TO HOLD A HEALTH **EXPOSITION IN MAY**

Manufacturers Building and Coliseum at Fairgrounds Will be Scene of Great Undertaking

GIVEN BY HEALTH BOARDS

Every Phase of Health Activity and Disease 'Prevention Will be Brought Before People

Indiana is to have a State Health Exposition at Indianapolis May 19-27 under auspices of the State Board of Health and Indianapolis City Board of Health in co-operation with a large number of national organizations. Every phase of health activity and disease prevention will be brought before the people by displays, demonstrations, motion pictures, lectures, lessons, models and special features.

The Manufacturers Building at the State Fair Grounds, with 85,000 square feet of display space, and the Coliseum, seating 8,000 persons, will Your Old Suit be the scene of this great undertaking. Co-operating with the State and Indianapolis Boards of Health in this undertaking are the United States Public Health Service, Na-Cleaning, tional Health Council, American Public Health Association, American Pressing and Repairing, Red Cross American Social Hygiene Association, American Society for the Control of Cancer, Conference of State and Provincial Health Authorities of North America, Council on Health and Public Instruction of the American Medical Association, National Child Health Council, National Committee for Mental Hygiene, National Organization for Public Health Nursing, National Tuberculosis Association, American Child Hygiene Association, National Child Labor - Committee and the Child Health Organization of Amer

> All these organizations will present their respective subjects and activities with live, moving displays, demonstrated by specialists in the prevention of disease. Indiana anof the nually losses about fifteen thousand men, women and children from preventable disease, involving a finan-cial loss of not less than \$50,000,-

> > Individual health education is the great solution to the problem. The gigantie display at Indianapolis is expected to pave the way for a public awakening on the very great im portance of raising the public

The "tragedy" is the realization of extinction.

The last of the three parts, another week later, reveals the year 31,920— "As Far as Thought Can Reach"ind shows the development of Shaw's And interest means the unusual theory. The "baby" bursting from the huge egg, surrounded by "children" of four with the knowledge which the short-lived have attained only when ready to finish life-is: one detail.

The differentiation between enjoyment and interest was not fully accentuated until the last of the performances. Shaw's seriousness has ertainly made him very talky and preachy. In "The Tragedy of the Elderly Gentleman," when Albert Bruning gave an overpowering memory test in the long part, enjoyment began decidedly to camouflage itself behind interest. At the last, of the three performances those who had left the theatre at the first cycle discussing whether they would like to live to be 300 were all of the opinion it would be too fire-

The first performance was one of the most brilliant gatherings of the 'eognoscentil' in New York. There was a thinning of the ranks at the opening of the third cycle, which vas talkier than any of the others.

Scenically Lee Simonson has achieved beyond the highest expectations. The Carden of Eden was especially beautiful. For the first time in America the Linnebach projector which throws a painted slide on a white back drop was used.

A noteworthy performance, is that of A. P. Kaye's "Joyce-Burge"

The best proof of the value of any remedy is the readiness with which those who are helped by it recommend it to their friends.

Those who have suffered the pangs and tortures of indigestion and dyspepsia are quick to acknowledge the prompt relief given by a brief use of Jaques' Little Wonder Capsules for indigestion, dyspepsia, and constipation. They are so grateful for the relief they have obtained they not only recommend this valuable stomach treatment, but in many instances buy the capsules to give to fellow sufferers. This is the case with Mrs. G. G. Smithey, 323'N. 11th St. Columbus, O., who writes: "Please find enclosed stamps for which send metwo phoxes Jaques' Little Wonder Capsules are made of pure gelatin which promptly dissolves upon reaching the stomach, freeing the contents to do their work in restorang the digestive organs to normal.

UNITED FIGHT TO CAPTURE PENNSY

Democratic \ Organization In Pennsylvania Shows Unified Party, ... Hopeful for a Victory

REPUBLICANS SHOW WEAKNESS

One Reason For G.O. P. Not. Having Upper Hand of Situation

By DALE VAN EVERY

Harrisburg, Pa., April 11.—The political campaign in Pennsylvania this year promises to be the most interesting in many years. With an amazing rapidity, the strategic posieen reversed. Instead of an highly organized Republican party, scornfuly ignoring a weak and divided Demoeratic minority, this campaign finds a united Democratic party determined to take advantage of Republican lack of leadership.

The death of Vois Penrose threw nto disarray the well oiled Republican machine in Pennsylvania. In the place of the overtowering figure who controlled the destinies of the party there are now a score of big and little bosses who have failed to get together. The Republicans are going into the primaries with a multiplicity of elbowing. Candidates attacking one another will ammunition usually used against Democratic opponents.

On the other hand, the Democrats, isually divided into hitterly warring factions, as a result of harmony conference have arranged a complete state ticket which has the declared will therefore need to waste no effort has arranged temporary offices for in primary intra-party bickering.

At the election next November the roters of Pennsylvania will elect two United States Senators (the successors to Knox. and Penrose), congressmen and a complete state ticket: Sitting in-the Senate now the Republicans have George Wharton Pepper officer, and a number of secretaries. in the seat of Penrose and William E. Crow in the place of Knox. It is evidence of Republican lack of unity that no decision has yet been reached oneerning how these two senatorships may be preserved from Demoratic clutches.

Mayor David A. Reed of Pittsurgh, has practically uncontested Republican (support) Crowe who has been sick in hospital for months. Pepper scens equally certain of little contest within Republican ranks and will be nominated without question as Penna's other United States senator.

The Democrats have named Col. Frederick Kerr to run against Pepper and Judge Sameul S. Shull against the Republican who takes Crow's place. The Democratic state ticket as a whole led by John A. McSparran, former candidate for governor, will make a vigorous attack on the Republican record. There are few indications that Pennsylvania, so long fixed in the Republican column, will turn Democratic this year However, if the Republican party proves unable to restore harmony within its ranks, the Democrats will probably have the best chance of the last sevoral decades.

The candidacy of Clifford Pinchot, famous conservationist and former progressive, for Republican nomination for Governor is a most interesting element in the primary campaign Pinchot has not the support of any group of the Republican organization which is divided among four other candidates, but personally he is believed here the strongest figure in the race. There are indications that he will pick up most of the woman vote and it is possible that, machine as he is, he may win the Republican nomination for governor.

U. S. MAN DIRECTS **BRAZILIAN FAIR**

Cel. David C. Collier Appointed Commissioner General of U. S. to Centenary Expesition

TO BE REAL TRADE EXHIBIT

Lack of Leadership is Said To Be Coloner's Experience as Director of Panama Pacific Exposition Stands Him in Good Stead

By MILES W. VAUGHN (U. P. Staff Correspondent)

Rio De Janerio (By Mail to Unit cd Press).—The dynamic personalify of Colonel David C. Collier; commissioner general of the United States to the Brazilian Centenary Exposition, already has done much to insure success of American participation in the celebration.

Colonel Collier arrived recently. With characteristic American energy he started work at once. His first move was a campaign to make the exposition a real trade fair, with exhibitors from all the world and salesmen to take orders for merclimidise on the spot.

The Commissioner General purchased a plot of ground near the end of the Avenieda Rio Branco, on the shore of Gunanabara Bay, for the site of the exposition building of the United States. The price paid was \$50,000.

Colonel Collier's experience as director of the Panama Pacific Exposition in San Diego is standing him in good stead and he already has become a virtual advisor to the commission of the cafes any too modest about it. One managing preparations support of all wings of the party and for the exposition. The government the Americans in the Monroe Palace, the parliament building.

> Other members of the American commission already in Rio include: Levi Grant Monroe, chief excentive assistant to the commissioner general; F. W. Leach, chief disbursing

CATTLE TESTING **IS BEGUN MONDAY**

Inspector Alexander of U.S. Department of Agriculture, Starts Work in Anderson Township

249 HEAD LISTED FOR TEST

Between 4 and 5 Percent React Showing That Tuberculosis Exists Among Herds in the County

Dr. Alexander, inspector for the bureau of animal industry. U. S. Department of Agriculture Monday, started work in Anderson township where about 80 percent of the farmers have signed applications to tuberculosis.

Two hundred and forfy-nine head Farmers' Association, headed by W. few months. R. VanSiekle, and arrangements have been made by the organization for getting the inspector to the various herds. This co-operation on the greatest attention in Rush county. part of the local organization is the reason why applications in Ander-

Applications have been turned in more difficult to arrange a schedule early stages of rural health work." for the work. However, all applicaas they can be reached.

When the testing which is scheduled for this week is completed, about 500 head will have been tested in the county. So far between four and five percent of the cattle tested have reacted to the test, showing that there is T. B. among the herds of the county.

Recently one of the local veterinarians was called upon to diagnose trouble in a herd of hos. He made a post mortem examination of a number of sick animals and found the herd to be infected with tuberculosis. The same condition was found in another herd in the same neighborhood. If the truth were known, it would no doubt be that (Continued on Next Page)

Rural Health

BY GRACE EWING County Red Cross Nurse

Since there is a limited number of Public Health Workers in state, only two or three of these special branches are being emphasized in any one particular county. School inspection and tuberculosis nursing, form a most practical basis for the advancement of a health program in this quanty. The reports of the many, many defects, found among the children, especially prove the need of school inspection. the school inspection is included the follow up work or the home visiting and the correction of defects, in many cases.

Prenatal nursing needs special attention. It is one of the most imhave their cattle fested for bovine portant phases of the public health service and considerable interest has already been manifested. A of cattle have been listed for test more extensive program is planned by a committee of the Township to be carried out within the next

Receiving sets are already being used by many county Farm Bureau organizations ;co-operative shipping associations and co-operative elevators are using receivers to get the latest market development and more and more individual farmers are installing the equipment.

It has been recommended that the Secretary of Commerce be given adequate legal authority for the effective control of the establishment of all radio transmitting stations except amateur, experimental and government stations and of the operation of non-governmental radio transmitting stations on the ground have failed, due to weather condithat radio communication is a publie utility, and as such should be regulated and controlled by the Federal Government and public inter-

"The service will serve farmers as the stock tickers serve the brokers," says Fred L. Petty, who is the new editor of the service, "and in addition to general agricultura news will contain news of the marketing centers and the latest developments of interest to rural communities."

Mustard and other grainfield weeds can be cleaned out by harrowing the young grain several times with a spike-tooth harrow or by the use of a weeder. Do not use the harrow or weeder, after the grain is 3-4 inches high.

Annual Legumes Should be Grown When Possible as Sudan Grass Lezves Ground in Poor Condition

MOST SOILS GROW SUDAN

Few Rush County Farmers Have Made Inquiries Regarding Grass As a Hay Crop

A few Rush county farmers have made inquiry regarding Sudan grass as a hay crop and the following information is given by the county agent's office, for the purpose of showing that this crop would be of only limited value in this county.

Sudan Grass should only be grown as an emergency hay crop, or to supplement other forage crops that tions, or insect ravages. Annual legumes should be grown instead whenever possible, as Sudan Grass leaves the ground in a poor physical condition. This condition is not thought to be permanent. It is not without merit, however, as the plants are rank growing and prevent the growth of most weeds. Most soils to which cultivated crops - are adapted, will grow Sudan. New growth will spring up from the stubble after grazing, or after a hay crop has been taken.

Conclusions drawn from experiments with Sudan Grass conducted at the Purdue University Experiment Station, are that it should be seeded at the rate of 32 pounds to the aere for maximum hay production. The desired rate can be obtained by

PLANS BEGUN FOR

Representatives From 12 States Formulate Ideas For Fourth Annual Exposition at Chicago

DATE IS DECEMBER 2 TO 9

Entries Will Close on November 10 and Over 4,000 Are Expected To Compete For Prizes

Representatives from twelve of the middle west states and Canada, assembled in Chicago, recently to consider preliminary plans, rules and regulations for the fourth International Grain and Hay Show, to be held Dec. 2 to 9, in connection with the International Livestock Exposition. The Chicago, Board of Trade has again offered \$10,000 in eash premiums, which makes the always have carried away many of constant eversight of the health of the best prizes and they will be there in force again this year.

Educational exhibits from a number of the agricultural colleges will constitute one of the big features in present time, college exhibits are gram to include children of preconnection with the show. At the being planned by Michigan, Wiscon- school age. sin, Nebraska, Missouri, Kansas, Indiana, Idaho, Montana and Texas.

A new class was provided in the premium list for Prairie Hay, making a total of four hay classes; Red Clover, Timothy, Alfalfa and Prairie Hay. An additional class was provided for soy beans. The central part of the Corn Belt, which is included in Regions Three and Four, according to the International division of the United States, will each be provided with a soy bean class, rather than showing in one group as last year. A sweepstakes premium undiscovered cases of tuberculosis; for soy beans will also be added to giving nursing care when needed; the premium list. No sweeping changes in the allotment of premiums teaching the family preventive measwas made with the exceptions of the ures; securing medical examination oats classes. Oats classes in the northern regions will be offered more money and a larger number of

Entries for the Grain and Hay Show will close Nov. 10. This year the special rule will be enforced that all entries must be in by that date. The show has grown from 2000 cntries to 3312 entries last year and and it is expected that over 4000

Those attending the conference at Chicago were: O. J. Willard, Columbus: A. T. Wiacko, Lafayette, E. D. Lausing, Mich.; A. D. Haedeke, St. Paul, Minn.; C. A. Helm, Columbia, Mo.; S. C. Salmon, Manhattan, Kas.: P. H. Stewart, Lincoln, Neb.; D. N. roughage.

Fungus Disease is Worse Kind Attacking Raspberries-Much More Serious on Black Raspherries

IS CAUSE OF MUCH LOSS

Disease Can be Recognized by Small, Effiptical or Circular Spots on The Canes

the worse disease attacking raspberries in Indiana. It is much more serious on black raspberries than tacked, but usually not as seriously as the raspberries.

"This fungus disease can be reccanes. These are at first small and purplish in color, becoming grayish white with a purple margin, and are the disease and anything which will a checking or cracking of the bark, help to hold the disease in check. particularly at the base of the canes. It also causes much loss in Indiana by killing the young canes and also the small branches and stalks of the fruit clusters, causing the sudden this insect as well as the anthracdying and drying up of the fruit," nose. says the Botanists of the Purdue University Experiment Station.

The control of this disease should begin at once. The following methods are recommended.

1. If the old canes have not been removed this should be done and uneven surfaces. ' they should be burned. It is much hetter to do this as soon as the fruiting season is over as they serve an excellent substitute.

as a source of infection for the new

2: Spray, while the canes are dormant, with line sulphur 1.8, or 6‡ gallons of the concentrated solution in 50 gallons of water. A second spraying should be given when the mant, with hime sulphur 1.8, or 61 spraying should be given when the canes are six or eight inches high, and a third just before the blossoms appear, using for these two high, lime sulphur diluted, 11 gallons to 50 gallons of water.

.3. A relatively short rotation should be practiced.

4. In setting out new plantings carefully examine the cuttings used to make sure that they are free from anthraenose spots. Otherwise Anthrachose is without question the disease will be introduced on the cuttings. If the plantation is started by division of the old roots care should be taken that the old stems are cut off very close to get rid of on red. Blackberries may also be at- all the source of infection. New patches should be sprayed from the first, as outlined above.

5. Clean cultivation of the patch is also essential and weeds should ognized by the small, elliptical or never be allowed to develop as they interfere with air circulation. Moisture is necessary for the spread of frequently so abundant as to cause facilitate its rapid evaporation will

Floor **Coverings**

Rugs, Carpets, Linoleum, Mattings

Bringing Spring indoors is no act of magic. The new floor covering do it, transforming the darkest of halls, bed room, living room, dining room and kitchen into cheery, livable spots. The prices make it possible to "do over" the entire house very inexpensively.

INJECTING SWINE IN FLANK MEANS SAVING

Use of Ham or Shoulder Often Results in Infection.

Department of Agriculture Urges Vet erinarians to Avoid Possibility of Injury by Selection of Some Other Place.

(Prepared by the United States Department of Agriculture.)

Complaints from packers indicate that there are still many veterinarians and farmers who persist in immunizing hogs against cholera by making injections in the ham or shoulder, a practice that often results in infection and the formation of deep abscesses in the hams and shoulders where the serum and virus were injected. The United States Department of Agriculture has long advised against using those parts as points of injection, and the department veterinarians are instructed to avoid the possibility of such injury by selecting some other place. · The ham has been favored as a place Tan be made more rapidly and easily

Injecting Hog in the Flank.

at this point, but they can be made with equal success in less valuable parts, such as the flank or auxiliary space, where there is loose connective In making an auxiliary injection the for making the injections because they front legs should be spread apart so to the length of a walking stick.

as to stretch the superficial muscles between the legs, and the needle should be directed so as to avoid the muscles of the shoulder.

It is desirable to make the injections at a point that will make drainage easy should an abscess form. Serum should never be injected into a mass of fatty tissue, as it is not sufficiently absorptive. Although the serous membrane lining in the abdominal cavity takes up serum readily, abdominal injections are not recommended because of the danger of puncturing the internal organs with the needle or of carrying infection into the

Small pigs and shotes up to 80 pounds in weight may be held up by the hind legs, with the forefeet resting on the ground, and the injection made into the loose tissue of the flank. A pig so held is in a good position for the taking of temperature, cleansing the area of operation, and making the injection. Farmers' Bulletin 834 which has been recently reprinted, contains full information regarding hog cholera and the methods of control.

So thin is the material of a new in one hand while the pole telescopes development.

HELP EFFICIENCY OF HORSE

Numerous Inquiries Received at Mis souri College of Agriculture for Hitches.

Farmers are making use of power in larger units than ever before. Numerous inquiries for three-horse hitches for wagons and five to eight-horse hitches for plows are being received by the Missouri College of Agriculture, says J. C. Wooley of the agricultural engineering department. The three-horse load will take but little more of the man's time than the two, but his efficiency has been increased 50 per cent.

Oats Best for Sows.

Oats is a much better grain for prood sows than corn, and a mixture of about equal parts of oats and corn is better than either grain alone. Alfalfa or even clover hay will pay good returns when fed to brood sows.

Alfaifa Bad for Horses.

It seems advisable, judging from the results of experiment, not to feed a heavy alfalfa ration with corn to growing horses, particularly to puretissue that readly absorbs the serum. tent that it can be folded and carried breds when seeking the best possible

Read St. Lake 20:27-47; 21:1-9. "Religious -zeal does not neces sarily argue ethical enlightenment.

Meditation : Millions have been led astray regarding Christ's promise to return. Someone is going astray today. A mI sure that it is not my brother? Even the disciples of Jesus wore mistaken both with regard to His first mission and His second

Prayer: (For the coming of Christ in His own way in me and in the world.) O Thou Father of Jesus, we bless Thee for the Matchless One; and for His victorious life and death. May no shallowness or hyprocrisy vitiate our allegiance to Him. Save us, we beescech Thee, from choosing any other foundation for our lives. If there are Cethsemanes and Calvaries for us to brave, may His spirit not fail us in the testing; and grant us the joy of the Easter song of life that defies death, now and always. Fulfill desires, we entreat Thee, through the crucified and risen Lord. Amen.

Hymn: Dear Lord and Father of Mankind, Forgive our feverish ways, Reclothe us in our rightful mind; In purer lives Thy sevice find, In deeper reverence, praise.

NOT TO CONSIDER POLITICS

Indiana Farmers' Federation Will Take No Part In Election

Goshen, Ind., Apr. 11-Certain organizations of farmers of Indiana have taken the position that their members are not warranted in giving support to candidates for political offices who do not own at least 160 acres of farm land.

The question was discussed at ome length at a district meeting of Indiana Federation of Farmers here, but the delegates decided that the association should not take a partisan position in the forthcoming primaries and the elections of next fall It was decided, however, that the association would give its support to individual candidates who were favorable to the farmer.

ILLINOIS LEADS IN BUILDING

State Constructed 341 Miles of Permi nent Hard Roads in 1920, Setting New Record.

One of the most interesting developments of the last ten or fifteen years has been the complete rehabilitation of the road, in its age-long role as one of the chief means of communication. The years that intervened between the coming of the railway and the coming of the motorcar saw a great silence and a great quiet settle down over vast numbers of the world's highways, says Christian Science Monitor. The motorcar, however, has changed all that, and today states and countries are vying with one another in the matter of road building, as to both quantity and quality. All honor, therefore to the state of Illinois with its 341 miles of new permanent hard roads, last year, "a record for such construction in any state in the Union prior to

COW WILL INCREASE INCOME

Animal is Most Efficient Money Maker on Farm and is Entitled to Good Treatment.

E. A. Hanson, dairy extension specialist at University farm, renews the inquiry, "Are you keeping cows or are they keeping you," in a collection of feeding suggestions recently issued by him.

"Put the cow to work," he says, "and she is the most efficient money maker on the farm today. A cow producing 25 pounds of 4 per cent milk daily makes one pound of butterfat a day, worth about 50 cents. This cow needs rations and hay and silage which should not cost more than 15 cents duily, leaving 35 cents daily above the cost of her feed. Where can you invest your time and efforts to better advantage? Give your cows a chince. They are all capable of doing better when properly fed."

Don't Neglect a Cold

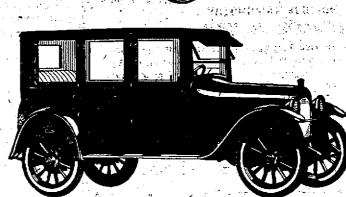

Mothers; don't let colds get under-way; at the first cough or sniffle rub Musterole on the throat and chest.

Musterole is a pure, white ointment; made with oil of mustard. It draws out congestion, relieves soreness, does all the work of the good old-fashioned mustard plaster in agentler way, without the blister.

Keep a jar handy for all emergencies, it may prevent pneumoniain your home. 35 & 65c in jars & tubes; hospitalsize, \$3. BETTER THAN A MUSTARD PLASTER

Hupmobile Finely Built

It is almost impossible to wear out the Hupmobile. The first Hupmobiles, built 12 and 13 years ago, are in use today, all over the world.

Owners, and those who buy in the used car markets, would tell you its depreciation is slower and smaller; that its price as a used car is proportionately higher.

Back of its longer life and rare economy, is, of course, the way the Hupmobile is built.

The fact is that many of its important parts are identical, in material and in manufacturing costs, with the same parts in the cars of the highest price; and Hupmobile shop practices are exceptionally fine and close.

Touring Car, \$1350; Roadster, \$1250; Roadster-Coupe, \$1485; Coupe, \$135; Sedan, \$1935;—Cord Tires on all models—Prices F. O. B. Detroit. Revenue Tax Extra.

JOE CLARK "We Are on the Square"

Hupmobile

There will be a show at McGraw's hall every night this week.

An Affair of Honor

San Francisco, Calif., April 11. visited Mr. and Mrs. Green Thomp- Literary and artistic circles of nor-California were buzzing wit The C. W. B. M. society will hold excitement today as a result of pubprayer service in the Christian lication of lurid accounts of an "alfair of honor" said to have been in-Mr. and Mrs. P. T. Bilby were dulged in last Saturday by Harry guests Sunday of Mr. and Mrs. Leon Wilson, author, and Theodore M. Crilley, landscape artist.

Yankee Point, five miles from Carmel-by-the-Sea, noted as a literary and artists colony, was said to have been the scene of the encounter. were named as weapons.

Crilley, the accounts had it, was the victor, three times knocking Wilson to the ground,

But it was claimed, Wilson was never vanquished and left hurling a challenge at Crilley to the effect that he would make him "pay and pay and pay."

The feud, according to the story told, started last year when Crilley and his wife and Mr. and Mrs. Wilson took parts in "Pomander's walk" a play staged at Carmel-byhe-Sea, by writers and artists. Wilson is said to have challenged

Crilley. The actual encounter last Satur-

day was described, allegedly by witnesses, as carried out according to all the customs of the code duello excepting as to weapons. Wilson appeared with two seconds it was stated, while Crilley came alone and made it known he had pledged his wife he would not strike the first

Neither of the principals will discuss the story of the affair,

Modern mining methods have made feasible that development of deposits of iron ore in Switzerland that were abandoned more than 40 years ago.

THE SAFE WAY

Have your car examined or overhauled before beginning its regular spring and summer use.

Cars get more or less out of order during the severe winter weather, and do not work as perfectly as they should. This additional wear and strain of the affected parts means increased expense to you if allowed to continue.

Failure to correct these defects has caused the wrecking of many cars. We are fully equipped to take care of any car.
